

You may find it helpful to use these templates for your starburst shape and photoframe for the back of your CD ornament. Print this page at full size on sturdy 8.5 x 11" paper and simply cut out the shapes below. Use the shapes to trace your cutting lines on your tissue and/or photoframe paper. Refer back to the full instructions for details.

Align this wedge shape with your folded circles of tissue.
Mark and cut out the interior V shape to create your starbursts.

Use the entire circle, cut from colored cardstock or heavy construction paper. When glued to the back of your CD ornament, it makes a nice space to write a personal greeting. If you'd like to make a photoframe, simply cut out the lighter center section and sandwich a photo between the frame and your ornament.
